<http://www.cohencommission.ca/en/TechnicalReports.php>

Hi Bob,
I have not read any of these reports but they look pretty comprehensive. Though I don't see one titled "Development effect in the Fraser River Watershed".

I have talked with Becky at UAA about researching Fraser River salmon/mining relations. She said that Carol Ann Woody's staff (Sarah) was compiling the information available. That will be a start. When we see what they have come up with then we can see where to go. Their report is due out very soon.

Phil

Probably something useful here for Bristol Bay.
